WE HAVE THE MONEY!

There are so many things in life which could be enjoyed if only you had the money. It has been our observation that the folks who had the most and enjoyed the most things in life, were those who started a savings account and then kept adding to it. We invite you to open a savings account here today.

From where I sit ... by Joe Marsh

Jane Cupper's "Daring" Bathing Suit

The Cuppers showed me some tin-types of their nineteen-ten vacation—picnicking on the beach with beer and pretzels, in bathing suits that made them look like they were dressed in street-wear.

Dee was smothered in a long-sleeved pull-over with knee length shorts, and looking embarrassed—as if he thought Jane's costume of a heavy blouse, two copious skirts, and long black stockings was a little daring.

We laughed a lot at those costumes . . . but come to think of it, as Dee says, we'll probably look just as funny twenty years from now, in what we call our "Modern" clothes. Only thing that won't change in the picture is that mellow, wholesome glass of beer.

From where I sit, tolerance that lets us wear sensible, decent clothes—to give us sun and air and freedom—will keep that wholesome glass of beer a part of the American tradition.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine with many women say has brought relief from the cramp-like agony and nervous pain of this functional distress. Here's how it may help:

1 Taken like a tonic. It should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "time" it should help ease pain due to purely functional periodic cause.

Try Cardui. If it helps, you'll be glad you did.

LOOK INTO the next 2 days ahead

A Statement To Our Customers About Resale

PRICES of PRODUCTS

Built by International Harvester Company

Here at Harvester we are concerned over the fact that a growing number of our products are appearing on the resale market at greatly inflated prices.

As manufacturers, we try to produce at the lowest possible cost. We cannot set the prices at which our products—tractors, motor trucks, farm implements, refrigeration, and industrial power equipment—are sold. We can and do suggest list prices which the great majority of our dealers adopt as their retail prices.

$20,000,000 Price Reduction

Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately $20,000,000 per year on our products. At that time, Fowler McCormick, Chairman of the Board, said: "ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED."

Practically all of our dealers cooperated with this policy and passed on the savings to their customers.

The objective of the price reductions was to make it possible for customers to buy our products, which they need so badly, at lower prices. Naturally, this purpose is defeated when our products are sold by anybody at inflated prices.

IH Production at All-Time Peak

Inflated prices are caused by the difference between supply and demand. To increase supply, we now have the greatest number of employes in history on our payrolls—almost 90,000 in the United States, as against about 60,000 prewar. Large new plants are getting into production in Louisville, Evansville, and Melrose Park. A fourth will soon be in operation in Memphis. The men and women now employed are turning out the greatest quantities of IH products of all kinds that we have ever made. These are also the finest products we have ever made, and recognition of that fact is an important contributing factor to the demand for them.

Distribution to Dealers

But even record-breaking production is not sufficient to give your dealer—and other IH dealers—enough products to meet today's demand. We have tried to make the fairest possible geographical allocation of our products so that every dealer would get a fair share, and we know that dealers, in most cases, have tried earnestly to make the fairest possible distribution to their customers.

But we also know that many of our products—far too many—are being resold at inflated prices. The public criticism and resentment of these resales are of real concern to us, as we know they must be to our dealers, because such reactions endanger the good will of both the dealer and the Company in any community.

Distribution to Customers

Experience shows that many IH new products are being resold by users who decide they can continue to make out with their old equipment after they have had an inflated offer for their new equipment. To eliminate this, many dealers are taking measures to be sure that equipment purchased is for their customers' own use and is not to be resold.

Nearly all IH dealers, we believe, are now using the basis of PRESENT NEED as their primary guide for the sale of scarce products. The customer whose need is real and urgent is not likely to resell.

What Price Should You Pay?

While it may take a little more time to get delivery, we urge our customers to consider all of the factors mentioned here, before paying more than the list price for any IH product. Any IH dealer or branch can furnish the suggested list price for any IH product.

We know that the overwhelming majority of IH dealers are as much opposed to inflated prices as we are. In the public interest, we have already asked their cooperation—and are now asking the cooperation of customers—in correcting this situation.

'The Store of Values'

Most of the Norfolk and Western's earned dollars come from the industries, businesses and folks who operate and live in the communities along the railroad's lines.

And most of these N. & W. dollars go back into local circulation, ringing the bell in your cash register every day—whether you are a butcher, a baker or a candlestick maker.

About $62,400,000—nearly half of all the dollars the N. & W. took in last year — was paid to N. & W. employees in wages and salaries. Their dollars were spent with local merchants, invested in local real estate, deposited in local banks, contributed to local churches and charities, paid to local tax collectors.

The Norfolk and Western itself is a big customer in the hundreds of communities along its lines, spending many millions of dollars directly with local business, industry, and agriculture. On the N. & W.'s shopping list are more than 50,000 different items, ranging from pencils to freight cars, from coal to cross ties, from hardware to hams, from steel to steak, from oil and paint to ballast and bricks, and so on and so on.

These Norfolk and Western dollars are not a mere "shot in the arm". They are a steady, well-rounded economic diet that helps to promote the welfare and progress of the communities the railroad serves — a diet that helps to keep business busy for the butcher, the baker and the candlestick maker.
